### Product innovations

---

## Super Integrated

Thanks to a special connection, the assembly of KRONE products is easiest as possible. This technicity guarantees purity and elegance to KRONE products.

## Anodized Force

Thanks to electrolyte, anodizing provides an additional barrier against time. The durability depends on the type of treatment chosen, as well as the thickness of the protective layer. The treatment used produces a decorative satin finish, a matte or glossy finish.

### Several finishings available
