- + 6mm transparent tempered glass
- + NANO-CARE anti-scale treatment, made in Germany
- + Polished aluminum profile
- + Metal handle with "Soft Touch" material
- + Water fender included

Product innovations

Nano Care

Made in Germany with 5 years warranty, our anti-lime treatment brings a long-term transparency to the KRONE shower enclosure. If normal use, the water and lime stains won't remain on the glass surface : a minimal scraper use is enough, most of the residues disappear without any effort. The daily maintenance is fast, easy and ecological.

The superhydrophobic coating provides a robust defence against the build-up of limescale and soap scum
Nano-Care treatment does NOT include PFAO.

Super Integrated

Thanks to a special connection, the assembly of KRONE products is easiest as possible. This technicity guarantees purity and elegance to KRONE products.
